Screens & Accessories

◆ IRONHAUS ◆

More than just a pretty face.

A blacksmith shop at heart, Ironhaus doors and faces are handcrafted meticulously by artisans in Montana.

Ironhaus doors are more than just pretty faces. Glass doors provide better control and much more efficiency than an open fireplace. Mesh doors on gas fireplaces offer protection from high temperature glass.

Luxury, quality fireplace doors for masonry, gas and wood fireplaces are hand forged from 1/4" thick bar steel.

Visit www.ironhaus.com to find an authorized Ironhaus Dealer in your area.

Craftsman Style Door
with Custom Timber Iron Mantel

Strap Detail #4

There are two parts to choosing your Ironhaus finish, choosing a texture and choosing a color. Textures can make each color have a different look to it. Each finish is hand textured and the color is hand applied. This makes your Ironhaus door truly unique and one of a kind. As with any handcrafted application there will be variances in the finish.
