Who We Are

Located in the heart of Minnesota, The Outdoor GreatRoom Company™ (OGC) manufactures design-forward products handcrafted for your outdoor space. Products include gas fire pit tables, Crystal Fire® Plus burners and burner inserts, and accessories.

What We Do

The team behind The Outdoor GreatRoom Company was the first to enter into the gas fire pit category, positioning OGC as the experts on outdoor fire. We are U.S. manufacturers and all of our Crystal Fire® Plus burners and gas fire pit tables are UL and ULC listed for safety.

Our Promise

Let The Outdoor GreatRoom Company help to define your outdoor experience. We are your one-stop-shop for safe products, reliable and friendly service, and innovative technology. From concept to design to delivery, we will ensure your style doesn't stop at the door. Distinctive products for a distinctive lifestyle. Bring home outside.

Our Mission

To enhance the outdoor living experience by bringing family and friends together around fire.

History

In 1975, Dan and Ron Shimek had an inspiration for indoor gas fireplaces that changed an industry and became the foundation of Heat-N-Glo®. Brothers Steve and Gerry joined them and the rest (including over 50 patents) is history. But the Shimeks were never ones to dwell on the past. That inspiration led Dan to launch the first company of its kind in 2003: The Outdoor GreatRoom Company — a company dedicated to an exciting new concept "the outdoor greatroom."

Why OGC?

OGC is focused on bringing the best and safest product to the market. That's why we have a team with over 20 years of experience manufacturing products in the outdoor living category, and we continue to introduce the best innovative products year after year.

Crystal Fire® Plus Burner Technology
The safest and most reliable in the industry.

UL & ULC Listed
Tested for safety and quality.

Design-Forward Products
Handcrafted in Minnesota from durable, outdoor-rated materials.

We're Like Family
We provide exceptional customer service and reliability.

Photography Program

- Have an amazing outdoor scene featuring OGC products you'd like to show off? Send us your pictures!
- Most high end smart phones and digital cameras will work.
- If your photos are approved, you may receive up to $200 in credit for any future purchases.
- Send pictures with name, company name, phone number & sales order # to marketing@outdoorrooms.com

Images Requirements:

- Must be high resolution
- Larger than 2000 x 2000 pixels
- Must be in color
- Must include flame

Light up the night with a cozy, stylish gas fire pit.
Every table includes our Crystal Fire® Plus burner technology
for the best and safest experience. All fire tables include clear tempered glass gems.

GAS FIRE PIT TABLES

Gas Fire Pit Tables

hello
my HAPPY place

Design your own fire pit and fireplace.
We supply the structure, and you finish your masterpiece on-site
to match your landscaping or exterior design.

READY-TO-FINISH

Ready-to-Finish Fire Pit Kits

Be the visionary for your very own fire pit design.
Ready-to-finish fire pit kits are made from Fiberock® backerboard and G90 steel framing.

Finished Linear Kit

- Made of G90 marine-grade galvanized steel framing and Fiberock® backerboard
- Choose between manual ignition (VCSV) or direct spark ignition (DSI)
- Includes aluminum top, burner insert, two ventilation plates, and standard control panel
- Control panel will either have turn dial or switch depending on ignition type
- Other DSI controls, timers, e-stops, and fire media sold separately
- Recommended for hard piped natural gas or liquid propane installation
- Most do not fit 20 lb. liquid propane tank in base
- Made in USA with US and imported parts

Square kit with included components.

Linear kit with included components.

Ready-to-Finish Fireplaces

Perfect for both commercial and residential applications.
Ready-to-finish fireplaces are made from Fiberock® backerboard and G90 steel framing.

Finished Custom RSTL-60DNG

Finished RFLP-40MLP

- Made of G90 marine-grade galvanized steel framing and Fiberock® backerboard
- Fireplace opening enclosure is lined with #304 stainless steel
- Most models include direct spark ignition (DSI) — 40" model utilizes manual ignition (VCSV) and includes access door for standard 20 lb. propane tank
- Includes Crystal Fire® Plus burner insert, pre-installed vents, standard control panel, and glass wind guard panel(s)
- Other DSI controls, timers, e-stops, and fire media sold separately
- Can be used for liquid propane or natural gas installations — hard-pipe natural gas installation recommended
- Made in USA with US and imported parts

See page 26 for fire media options.

Fire Media

Tempered fire glass lights up the fire pit table with an ember-like glow. Complete your gas fire pit table or outdoor fireplace with beautiful tempered glass gems or lava rock. Choose from many shapes, sizes, and colors to create a custom look — you can even mix and match!

- Find your favorite for a unique, custom look
- Five glass media gems to choose from
- Black lava rock, tumbled lava rock (2 different sizes), and ceramic log set favor a more natural look
- Realistic-looking ceramic log set includes six wood pieces
- Clear tempered glass gems (CFG-D) included with all fire pit tables

GLASS GUARD-1264

GLASS GUARD-1242

GLASS GUARD-1224

GLASS GUARD-20-R

GLASS GUARD-2424

Glass Wind Guards

Glass wind guards look beautiful with the reflection of the dancing flames. Glass guards are available to fit any standard Crystal Fire® Plus burner.

- Reduces wind effect and provides a safety barrier for children and animals
- Tempered glass panels
- Stainless steel hardware — round glass wind guards feature a stainless steel rod for added durability
- Easy to set up and clean

FWG-1224 (up)

FWG-1224 (down)

Folding Wind Guards

The convenience of a glass wind guard and burner cover in one. Place the panels of glass up to protect the flame from the wind, and place them down to cover your burner when not in use. Available in two sizes: 12” x 24” (FWG-1224) and 12” x 42” (FWG-1242). Patented.

- Sits on top of burner trim
- Clear tempered glass
- Stainless steel hardware
- Easy to set up and clean

See pages 48–51 for accessory glossary.

1224-GREY-GLASS-COVER

20-R-GGC

Matching Supercast™ Cover

SS1242BC

CFT-GLASS

LAZY SUSAN RING

Burner Covers

Turn your beautiful fire pit into a functional table by covering the burner with one of our stylish burner covers. Covers also add an extra layer of protection from rain and debris when not in use.

- Grey glass burner covers are included with most fire pit tables; available for all burner sizes
- Select Supercast™ tables come with matching Supercast burner covers
- Add a stainless steel burner cover to CV-54, CV-72, or other select linear models
- Add a lazy susan ring or black glass cover to any of our 20" round burner covers

CVR5132

Protective Covers

Protect your investment with protective covers from OGC! Protective covers are great for storing items long term or for everyday use.

- Available for most fire pit tables
- Tan polyester fabric stays cool to the touch
- Tear-resistant, rip-stop laminating
- Drawstring cord at bottom to secure to fire pit
- Polyester velvet interior protects finished material
- One-way breathability: exterior is water-resistant while being one-way breathable to let any interior moisture out

CV-54 with optional SS54T

Stainless Steel Trim

Compliment the unique look of the 54" and 72" Cove Linear tables (CV-54, CV-72) with this modern stainless steel top.

- Available in two sizes: 54" (SS54T) and 72" (SS72T)
- #304 commercial-grade stainless steel construction
- Adds layer of protection to concrete surface
- Easy to clean

BRON52-K with optional BRON52-CG-TC

Bronson Concrete Tops

Complete your Bronson round gas fire pit kit with an elegant, contemporary concrete top.

- Choose between two colors: Limestone Tan or Charcoal Grey
- Four pieces included with each SKU

Color options available

Limestone Tan (BRON52-LT-TC)

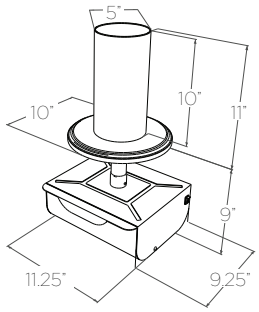
Charcoal Grey (BRON52-CG-TC)

See pages 48–51 for accessory glossary.

Intrigue Outdoor Lantern

Turn your dining table into the wow factor of your backyard.
Our innovative, spinning Venturi flame provides instant ambiance for your outdoor space.
The Intrigue Outdoor Lantern is clean burning, easy to use, and fits any outdoor design.

- Spinning Venturi flame designed to fit any table with an umbrella hole from 1.4”–4”
- Dora brown powder-coated finish
- Easy to assemble
- Single glass cylinder
- Use with 1 lb. propane tank
- For outdoor use only
- Includes black rubber glass lid
- Optional cover (CVRINT) sold separately
- UL and ULC listed



Crystal Fire® Plus burners are included with every gas fire pit table sold by The Outdoor GreatRoom Company. Purchase separately for custom-built fire pits, fireplaces, or other outdoor installations.

Crystal Fire PLUS

BURNERS & KITS

Crystal Fire® Plus Burners

Overmount Style
(burner shown: CFP1242-K with optional GLASS GUARD-1242)

Undermount Style
(burner shown: BP1264-A)

- Burners and burner kits include a variable control safety valve (VCSV), control panel, and clear tempered fire glass gems
- Higher BTU capacity for a brighter, taller, fuller, more yellow flame
- Safety ignition and safety shutdown operations
- “Positive connect” user experience with minimal gas connections for quick installation time
- #304 commercial-grade stainless steel construction
- Safe water drain system through perimeter of the pan
- Comes setup for connection to liquid propane but can be field-converted to natural gas
- Burners and kits above 64” in length include two valves and two control panels
- Installation should be completed by a certified gas technician
- UL and ULC listed to ANSI Z.21.97-2017/CSA 2.41-2017 standard

See page 39 for contract and commercial burner options.

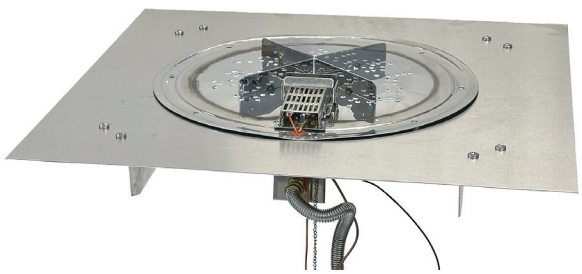
CFP2424-K



BP24S-A

Controls

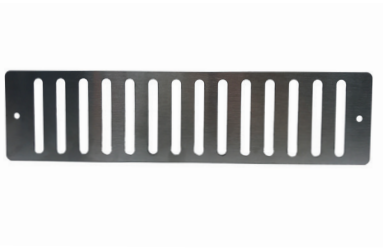
VCSV-CP

VCSV-DIY-CP

- If flame is not sensed for any reason, the flow of gas to the burner will safely shut down
- Adjustable flame operation
- Black powder-coated panel with black plastic knob and sparker
- For use with liquid propane or natural gas
- Optional gas key available
- Variable Control Safety Valve System (VCSV-CP) included with every standard table Crystal Fire® Plus burner and gas fire pit table (Dimensions: 6.375" H x 3.5" W)
- DIY control panel for use on custom or hardscape block applications (Dimensions: 9.5" L x 3" W x 4" H)
- Order DIY control panel for use with manual ignition (VCSV-DIY-CP) or direct spark ignition (DSI-DIY-CP)

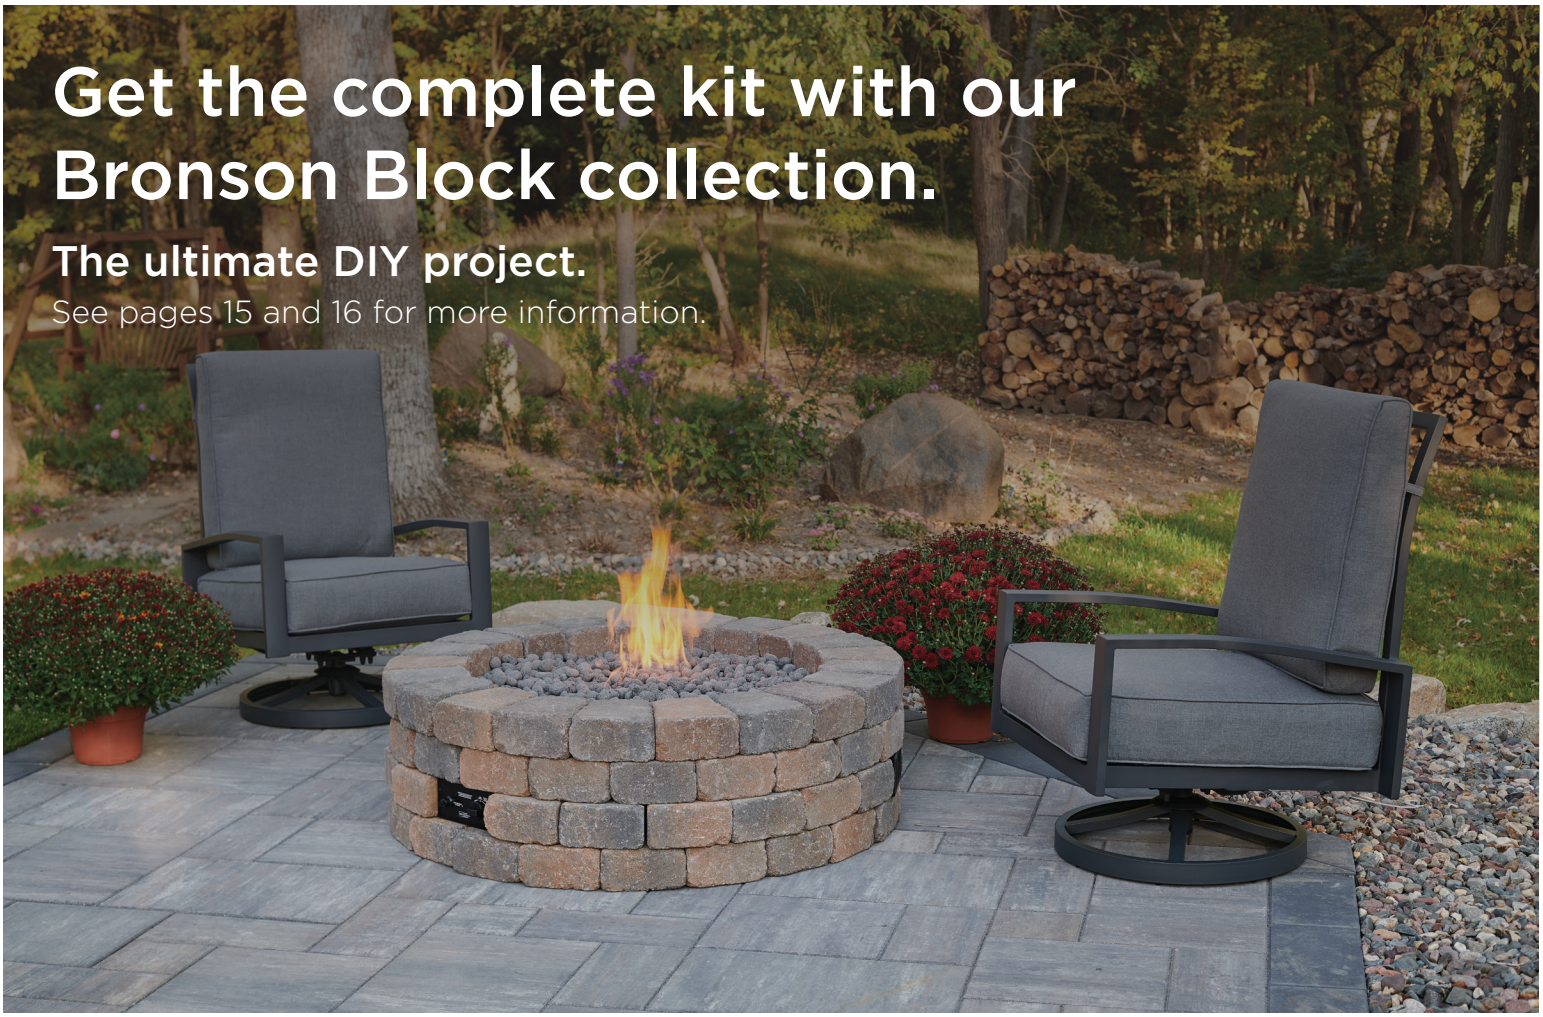
Ventilation

VENT BLOCK BLACK



21005

- Crystal Fire® Plus burners require proper ventilation for any DIY or field-installed application
- Black ventilation block (VENT BLOCK BLACK) is made of black powder-coated stainless steel (Dimensions: 8.5" L x 4" W x 4" H)
- Ventilation plate (21005) is made of brushed stainless steel (Dimensions: 12" L x 3" W" x <1" H)



Do-it-Yourself Kits

Take the guesswork out of your do-it-yourself project with these convenient burner kits.
Each kit includes everything you need for building the perfect fire pit.
Just add brick pavers or other construction materials to make it your own!

- Build your own gas fire pit with a do-it-yourself gas fire pit kit
- Includes Crystal Fire® Plus burner insert, burner plate, control panel, two ventilation blocks, and clear tempered glass gems
- Choose between round or square shapes
- Paver blocks not included
- Made in USA with US and imported parts

Perfect for multi-family residences, hotels, sporting arenas, concert venues, restaurants, and more. Any Outdoor GreatRoom Company product can be outfitted for contract and commercial spaces. All commercial burners include a control panel, emergency stop button, clear glass gems and electronic ignition.

Crystal Fire PLUS

CONTRACT & COMMERCIAL

Contract and Commercial

Overmount Styles

Undermount Styles

- Direct spark ignition (DSI) system with on/off switch operation
- Flame can be automatically ignited with a single control either on the fire pit or nearby surface
- If flame is not sensed for any reason, the flow of gas to the burner will safely shut down
- DSI system comes set up to run on 110V but can also be used on optional battery operation (CF-DSI-BP)
- Order specific for liquid propane or natural gas (not field-convertible)
- Includes red emergency stop button
- Switch bypass (CF-DSI-SB) included with burner for safe and controlled user operation
- Optional timer, wall switch, and other control panel configurations sold separately (see page 54 for control options)
- Ventilation required for field-installed burner enclosures
- Installation should be completed by a certified gas technician
- Patent pending
- UL and ULC listed

See page 44 for manual ignition (VCSV) burners.

Factors to consider when selecting your burner:

1. **Installation Site: Is your burner going into an already built surround or will you need a fire table or ready-to-finish base for your burner?**
2. **Burner Mount: Whether you are looking for a top overmount or bottom undermount application, we have the burner for you. Choose from drop in burners or burner insert and plate kits.**
3. **Installation Opening: What size and shape is your installation opening? Choose from our stocked burners or burner insert and plate kits to fit your space.**
4. **Operation and Controls: Do you want controls available for public use or in a more secure, controlled setting? Choose controls, such as a timer or on/off switch for your application.**

Timers

4HRTC CF-DSI-60MT

- Available in 1-hour and 4-hour options
- Timer replaces controls for direct spark ignition system
- Timer is built into control panel
- Black powder-coated panel with white timer dial
- Dimensions: 6.375” L x 3.5” W

Emergency Stop Button

CFP-ESO-CP

- Immediately shuts off flame when pressed
- Red button included with direct spark ignition system
- Black powder-coated panel with red plastic emergency stop button
- Dimensions: 4.5” L x 2.625” W

On/Off Switch with Emergency Stop Button

WSEP-CP

- On/Off wall switch with emergency stop button
- Replaces controls for direct spark ignition system
- For applications away from the appliance
- Black powder-coated panel with black switch
- Dimensions: 4.5” L x 4.525” W

Timer with Emergency Stop Button

4HRTES-CP

- Four-hour timer with emergency stop button
- Replaces controls for direct spark ignition system
- For applications away from the appliance
- Black powder-coated panel with white timer dial
- Dimensions: 4.5” L x 4.625” W

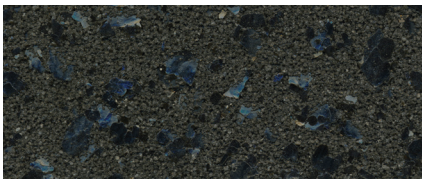
Standard Materials

Tempered Glass

Tempered glass is used for all glass wind guards, burner covers, and fire glass. It has been heat-treated and is safe to use with our Crystal Fire® Plus burners. Untempered glass or glass that has not been heat-treated can explode when it reaches high temperatures and is not safe to use with gas fire pit tables.



Stucco

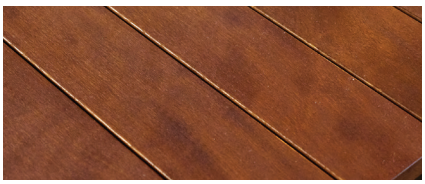
Stucco is used on many of our outdoor products and comes in many colors and finishes. Stucco is a low-maintenance and durable outdoor finish.

Supercast™ Concrete

Supercast is a proprietary blend of fiberglass and concrete to provide durability and strength. It is stronger and weighs less than traditional concrete. We have a variety of standard colors and finish looks.

Everblend™ Concrete

Everblend is a process and material developed in-house and manufactured exclusively at The Outdoor GreatRoom Company. It is a weatherproof, concrete finish over a fiber cement and steel structure. The durability can be compared to any glass fiber reinforced concrete but is lighterweight for easier handling and installation.



Wood

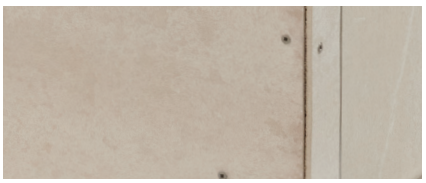
Appearance-grade, high-quality wood is used to create your dream design. Multiple stain options are available. Use wood to accent your look or complete your entire design.

Stainless Steel

Crystal Fire® Plus burners, outdoor kitchen accessories, and finish trims are made from #304 stainless steel. #304 stainless steel is a high quality, commercial-grade metal with superior corrosion and rust resistance.

Steel Framing

Steel framing is used to build many of our gas fire pit tables and outdoor fireplaces. The framing is G90 galvanized steel which provides strong corrosion and rust resistance in most applications.



Fiberock®

Fiberock backerboard is water, mold, and mildew resistant, making it durable for our fire pit tables and outdoor fireplaces. This eco-friendly board is made from 97% recycled materials and is ready for stone, tile or other finishing materials because it is solvent, adhesive and resin free.

Rip-Stop Polyester

Polyester is used for all of the tan protective covers. The fabric provides one-way breathability: keeping exterior water away yet allowing interior moisture out. The covers feature tear-resistant, rip-stop laminating to further reinforce its strength and protection for the outdoors.

Warranty

See user manual for more information.

PRODUCT CATEGORY	WARRANTY INFORMATION
Gas Fire Pit Tables and Crystal Fire® Plus Burners	• Limited lifetime warranty (defined as 10 years) on all stainless steel burners installed in a residential setting, and 5 years on all stainless steel burners installed in a commercial setting. • One year finish warranty • One year warranty on ignition & electronics • 3-5 year structural warranty on all fire pit bases and top
Outdoor Fireplaces	• Limited lifetime warranty (defined as 10 years) on all stainless steel burners installed in a residential setting, and 5 years on all stainless steel burners installed in a commercial setting. • One year finish warranty • One year warranty on ignition & electronics • 5 year structural warranty on all fire pit bases and top
Accessories	• One year warranty on protective covers • 90-day warranty on glass wind guards • Limited lifetime warranty on stainless steel glass wind guard brackets

Frequently Asked Questions

Crystal Fire® Plus Burners and Gas Fire Pit Tables

Are these burners and fire pits UL listed? What does that mean?

Yes, all of our burners are UL and ULC tested and listed. This means they have passed numerous tests to ensure safe operation meet current ANSI standards. They have undergone extensive wind, rain, and clearance tests.

Can I roast marshmallows over my fire table or burner?

Yes you can; however, this appliance is UL listed as a decorative gas appliance, not a cooking appliance. Make sure that combustible items do not end up in the burner, as it will clog the burner ports and prevent proper operation.

Are there different Crystal Fire® Plus burner models?

We have 22+ different Crystal Fire® Plus burners and burner kits in stock. All of these can be purchased as one complete unit or individual components. See pages 41-47 for our offering of burners, sizes, controls, etc.

What type of fuel can I use?

You can choose from either Liquid Propane (LP), or Natural Gas (NG). Most Crystal Fire® Plus burners and stocked fire tables come set-up for LP; however, a NG conversion kit included with each unit. If converting to NG, a certified gas technician should do the installation. When ordering an electronic ignition burner, you must specify LP or NG.

Can commercial burners be used in residential applications?

Yes, many homeowners desire an electronic ignition burner system as it allows them to control the burner at a switch away from the burner, as well as use optional upgrades like remote controls.

How many BTUs per hour are produced?

The BTU rating for each burner varies by size and fuel type. For exact BTU ratings, consult the burner manual.

Can I use my OGC fire table on a wood deck?

Yes, all OGC fire pits & fire tables are okay to use on a wood deck if clearances are met. Crystal Fire® Plus burners are UL and ULC tested and listed and are used in all of our outdoor fire pits. They are okay to use on concrete patios, wood decks, composite decks, etc.

What regular maintenance should be performed?

Regularly covering and cleaning your Crystal Fire® Plus burner will extend the life of the product and keep it performing at its best. Clean all loose debris, check fittings and tighten if necessary, ensure all gas lines are intact and free from obstructions, replace batteries in sparker if needed. Consult your manual for more information.

Is media included with the burners or fire tables?

Yes, we include clear tempered fire glass gems with each Crystal Fire® Plus burner unless otherwise noted. Various lava rock, crushed glass, and colored glass are also available.

If I purchase a burner for my own project, what else is needed?

That depends on the project and can vary from additional controls, media, etc. You will need to specify the fuel source (LP or NG) used if it is a commercial. We recommend working with your local OGC dealer to determine what is needed for your project. You may also contact us at sales@outdoorrooms.com.

What happens to my burner or fire table when it rains?

If the burner or fire table is uncovered, water will drain through the perimeter of the burner pan. Water will not drain through the burner neck or build up in the burner — it will safely drain out the bottom of the fire table. All fire tables and burners are constructed of outdoor-rated, durable materials.

Do I need to cover my fire table when not in use?

It is not mandatory to cover the fire table, but is recommended. Our tables are constructed of materials made to withstand outdoor exposure; however, we do recommend covering if not using for extended periods. This will prevent any unwanted debris from falling onto the burner. There are optional protective covers available.

What is the difference between a commercial burner and a residential burner?

Commercial-rated burners are often required for commercial applications (hotels, restaurants, etc.). The OGC commercial burners are identical to the residential burners except they include electronic ignition (DSI), and emergency shut off switch, and need to be ordered specifically for NG or LP. In addition, they have more options available for controls either at the burner or away from the burner.
